ABOUT US

Flash Fire & Safety has over 25 years experience in servicing Fire and Safety systems. We provide full spectrum services to organizations of all sizes and geographical locations. From sales, to installation, to ongoing inspections and certification. Our highly skilled and trained team is here to serve you.

Flash Fire & Safety provides one stop shopping for all of your life safety needs, including but not limited to:

- Fire extinguisher sales, certifications and repairs
- WATERAX® fire pumps
- Emergency and exit lighting
- Kitchen suppression systems
- Kitchen hood cleaning
- Fire alarm inspections
- Gas monitor sales and service
- Sprinkler inspections
- Backflow certifications for both domestic and fire water systems
- Special hazards releasing systems either water or gas
- First aid supplies and burn kits
- Complete line of cleaning and chemical supplies
- Security system installations and service
- Access control system installation and service
- CCTV system installation and service
- Nurse call system installation and service
- Portable fire fighting systems
- Emergency and exit lighting services and inspections
- Fire extinguisher training

Flash Fire & Safety provides comprehensive reporting on all of our inspection services, including detail of any deficiencies that may be present. We offer and coordinate full remedy services necessary to meet compliance requirements. Flash is Intertek certified and compliant with NFPA 10 standards. We maintain all necessary insurance, and our professional technicians are equipped with necessary tickets.

For more information about what we can offer, please visit our website or contact us directly. Thank you for your interest, we look forward to working with you!

AUTOMOTIVE *Car & Truck Wash Products*

F-33 CAR WASH

A quality, blue, powdered compound with road-film removing properties designed for use in pressure washers. A251

CAR WASH C.H.

A yellow, non-dusty, powdered detergent with excellent solubility and cleaning properties designed for use in pressure washers. A254

H-300 CAR WASH

A moderately alkaline, all-purpose, powdered pressure wash detergent. A252

R-1 EXTRA PRESSURE WASH

A quality, non phosphate, blue granular compound that dissolves easily in water. It is a very alkaline, biodegradable product intended for washing and degreasing industrial and farm equipment, engines and trucks. A253

LIQUID TOUCHLESS CAR WASH

A highly concentrated detergent with excellent road- film removing properties specifically designed for use in touchless car wash systems. A257

LIQUID TOUCHLESS PLUS

A highly concentrated detergent with excellent road-film removing properties specifically designed for use in touchless car wash systems. A273

JET CLEAN PLUS

An excellent, liquid, pressure wash detergent with special degreasing and road-film removing properties. It may be used with hot or cold water. A259

H.D. LIQUID CAR WASH

A high foaming detergent with special degreasing and lubricating properties designed primarily for use in brush and cloth type automatic car wash applications. A258

FOAMING BRUSH CAR WASH

A high foaming, liquid detergent designed for use in foam brush car wash applications. A263

SUPER FOAMING BRUSH

A highly concentrated, high foaming, liquid detergent designed for use in foam brush car wash applications. A264

AUTOMOTIVE PRESPRAY

An alkaline, red liquid product for use in pre-spraying vehicles before entering car washes. A269

TRI-FOAM RED/BLUE/YELLOW

Three viscous detergents for use in foaming brush applications. These products will provide coloured, high stable foam with excellent cleaning properties as well as lubricity for the brushes. They are gentle on hands and will not harm paint, rubber or chrome. They are fully biodegradable and phosphate free. A282/A283/A284

TRUCK WASH & SOOT REMOVER

A concentrated product ideally suited for removal of carbon soot generated from exhaust. It is also an effective cleaner and degreaser for industrial trucks, trailers, equipment and buildings. This biodegradable, non- caustic degreaser leaves a protective film on metals and prevents flash rusting. A296

AUTOMOTIVE *Automotive Specialty Products*

COLD SPRAY WAX

An economical drying polish and dewatering agent for use on all vehicle exteriors. A260

CARNAUBA HOT WAX

A polish and surface protection compound with the added benefit of carnauba wax for enhanced shine, rust inhibition and water repellency. A261

RX-10 CONCENTRATED AUTO POLISH

A concentrated surface protectant offering increased shine and water repellency to paint, chrome trim and clear coat. It provides better water beading and breaking. A288

VC-20 CLEAR COAT

A premium highly concentrated sealant and clear coat protectant offering long lasting shine and water repellency to automobile surfaces. It provides water sheeting and breaking for quicker drying. A290

RUST INHIBITOR

A liquid corrosion inhibitor ideally suited for use in spray applications on vehicle undercarriages. A270

TIRE SHINE

Tire Shine revitalizes and restores the original shine of tires, soft vinyl trim, black rubber bumpers and floor mats. A277

ALKALINE ALUMINUM CLEANER BRIGHTENER

An excellent alkaline cleaner and brightener of aluminum trailers and other exterior aluminum surfaces, painted or unpainted. A268

AUTO BRIGHT

A liquid rust remover used to remove iron stains and light rust from painted vehicle surfaces, and the removal of industrial fallout on new vehicles. A272

VINYL SHINE

A water-based product that will protect and beautify vinyl surfaces such as dashboards and upholstery while leaving a lasting shine. It restores colour and luster to vinyl siding on homes that has been faded by sunlight. A276

A-50 ALUMINUM BRIGHTENER

A concentrated and exceptionally effective liquid acid blend used for the brightening of aluminum trailer surfaces. A266

ALUMINUM BRIGHTENER EXTREME

This is a concentrated cleaner and brightener for aluminum trailers or other exterior unpainted aluminum and stainless steel surfaces. It removes oxidation leaving a shining surface. This product is a special blend of surfactants, sulphuric and hydrofluoric acids. A265

BUG REMOVER CONCENTRATE

A concentrated, liquid, hard surface cleaner when diluted makes a very effective windshield cleaner removing oil residue, dirt and bugs. A274

FOAMING AGENT

This product is designed to give optimum foam height for specialized applications of detergent or acid cleaning compounds in industrial or food plant applications. A267

AUTOMOTIVE *Automotive Specialty Products*

NON-ETCHING ALUMINUM BRIGHTENER

This product is a ready to use formula containing biodegradable surfactants and an effective blend of acids. It will restore and retain polished aluminum, stainless steel and hard chrome surfaces. Use on RV's, bulk carriers, wheels, fuel tanks, dump trucks to remove road film, soot, dirt, oil and corrosion. A271

CITRUS TAR REMOVER

A natural, viscous, citrus solvent based degreaser and tar remover ideally suited for pre-spraying tar spots on vehicles prior to washing. This product does not contain any chlorinated solvents, petroleum distillates, acids or alkali. It is non- flammable, non-corrosive and has a pleasant orange odour. A275

DAIRY & FARM

CIRCULATION CLEANERS

FARM PIPELINE CLEANER

A heavy duty, granular, chlorinated, non-foaming bulk tank and pipeline cleaner. It is excellent in all water conditions and will remove protein and butterfats from stainless steel and plastic equipment. F352

C.I.P. CLEANER

A granular, chlorinated, non-foaming, alkaline circulation cleaner. It is effective in removing protein and butterfats in bulk tanks and pipelines. F353

LIQUID C.I.P. CLEANER PLUS

A highly concentrated, chlorinated, alkaline cleaner for in-place cleaning of milk equipment. It is excellent in hard water and prevents soil redeposition on lines and equipment. F350

E-5 LIQUID C.I.P. CLEANER

A concentrated, chlorinated circulation cleaner for in-place cleaning of milk equipment. It is effective in the removal of protein and butterfats in pipelines and bulk tanks. F354

MANUAL CLEANERS

S-2 MANUAL CLEANER

A granular, chlorinated, foam type manual cleaner for washing milking equipment and utensils. It is a non-caustic product effective in all water conditions. F356

ACID CLEANERS

ACID CLEANER H.D.

A concentrated and highly effective, non-foaming liquid used for cleaning of difficult areas that are prone to scaling. F375

M-35 ACID CLEANER

A red colored, non-foaming, liquid, acid cleaner for the removal and prevention of milkstone in pipelines and bulk tanks. F357

M-12 ACID CLEANER

A foaming, acid cleaner for cleaning of milking equipment and utensils. It will remove milkstone and hard water scale from all hard surfaces. F358

SANITIZERS

T-30 CHLORINE SANITIZER

A granular, quick-dissolving, organic chlorine sanitizer for use in milking equipment and utensils. It contains 30% available chlorine and has excellent storage stability. F360

LIQUID CHLORINE SANITIZER 12%

An effective sanitizer and bleaching compound for a variety of applications. It is economical and removes stains without scratching. F371

K-13 OSTRO DINE

An iodine based cleaner-sanitizer for milk tanks, utensils and equipment. It also prevents milkstone build-up. F361

DAIRY & FARM

SANITIZERS (Continued)

K-24 GERMICIDAL TEAT DIP

A 1% iodine based product used as an aid in controlling mastitis. It contains 4% glycerine. F362

K-24 G GERMICIDAL TEAT DIP

A 1% iodine based product used as an aid in controlling mastitis. It contains 8.5% glycerine. F367

H-30 TEAT DIP

A 0.55% chlorhexidine based product used to help prevent and control mastitis. This is available in thick or thin versions depending on application methods. F369

K-12 IODINE TEAT DIP

A 0.5% minimum titratable iodine based teat dip containing glycerine. This product is ideally suited as a pre-dip. F370

IODINE UDDER WASH

A 2% iodine based udder wash and sanitizing concentrate. F365

H-50 UDDER WASH

A 1.6% chlorhexidine based product for routine use to aid in the prevention and control of mastitis. F368

PEROXYSAN 5

A peracetic acid based sanitizer ideally suited for a variety of sanitizing applications in food plants, dairies, breweries, wineries and beverage operations. It may be applied to pre-washed surfaces such as floors, walls, process equipment and CIP systems by immersion, coarse spray or circulation. T647

BARN STORM

An iodine based cleaner-sanitizer for use in poultry houses, chicken hatcheries and hay barns. It can also be used as an excellent boot wash, sow wash and equipment wash and disinfectant. F390

OTHER ITEMS

A-40 AGRICULTURAL FOAM

A very stable marking foam used with crop spraying equipment. It will not harm vegetation, soil or equipment. F380

R-62 EGG WASHING COMPOUND

A chlorinated, non-foaming egg wash compound for use in all size industrial type washers. It is effective in all types of water conditions. F364

CLUCK'R PLUCK'R

This product aids in the loosening of feathers on chicken and turkey carcasses during the scalding process before plucking. F363

FOOD PLANT

Please refer to our Food Plant product list for additional, complementary products for dairy and farm use.

INDUSTRIAL

Powdered & Water-Based Degreasers

AB-50 DEGREASER

An excellent, non-flammable, alkaline cleaner degreaser for use on a wide variety of surfaces. It is ideally suited for degreasing of engines, "off road" equipment, concrete floors and tires. I309

RS SPECIAL

A highly concentrated, heavy duty cleaner and degreaser designed to remove grease, oil, dirt, wax and other foreign matter from a variety of surfaces. I328

POWER ONE DEGREASER

This is a cleaner-degreaser designed for use on a wide variety of surfaces. It requires no solvent and is non-flammable. I307

AVALANCHE CLEANER- DEGREASER

A non-corrosive, fully biodegradable, water soluble degreaser that removes oil, grease, dirt, smoke deposits and grime from hard surfaces. It is approved by the Environmental Choice program. J704

HOT TANK CLEANER - STRIPPER

A non-foaming, caustic soda based compound ideally suited for decarbonizing, paint stripping, rust removing and degreasing of ferrous metals. It is also recommended for effective cleaning of non-soft metal radiators and engine blocks. I304

HOT TANK CLEANER - ALUMINUM

A non-foaming cleaner degreaser designed for use on aluminum and other soft metal parts in high pressure cabinet washers and hot tanks. Ideal for use on transmission components, engine parts, brake drums and gears. I322

POWDERED PARTS WASH

An alkaline, non-foaming cleaner and degreaser ideally suited for use in recirculating washers, high pressure cabinet washers and hot tanks. It is non-caustic, environmentally friendly and contains citrus solvents plus effective rust inhibitors. I326

LIQUID PARTS WASH

A low foaming, environmentally friendly solution replacing solvents in re-circulating solvent washers, high pressure cabinet washers and manual cleaning applications. It is safe to use on all metal parts. I325

GRAFFITI REMOVER

A carefully blended liquid designed to remove most types of graffiti, rubber heel marks and similar stains from concrete, metal, brick and glass surfaces. I336

GRANULAR DRAIN CLEANER

An inhibited caustic and aluminum based product designed to dissolve grease and other organic matter in sewer lines, drain lines and grease traps. I315

INDUSTRIAL *Solvent & Citrus-Based Degreasers*

SOLVENT BASED DEGREASERS

VEGESOL

VegeSol is a clear, semi-viscous fully biodegradable methyl ester- based emulsifier / degreaser that rapidly penetrates and emulsifies grease, oil, tar and asphalt. The semi-viscous nature of VegeSol allows it to cling to a vertical surface for longer than most degreasers and with less evaporation, increasing dwell time and effectiveness. I308

T-300 TAR REMOVER & DEGREASER

A highly effective and versatile degreaser designed to remove oil, bitumen and tar deposits from heavy equipment and vehicles. I311

D-40 H D DEGREASER

A superior solvent based degreaser and tar remover for use in oilfield applications offering effective degreasing of heavy equipment and vehicles. I310

MP-50 IMMERSION CLEANER & DEGREASER

An environmentally friendly immersion cleaner that contains no chlorinated solvents. Safe to use on all metal surfaces. Removes grease, oil, carbon, paint, varnishes and gummy deposits. I324

X-CEL DEGREASER

An excellent solvent based degreaser designed to loosen and dissolve grease, tar and bitumen. This product is well suited for the oilfield and heavy industrial degreasing. Surfactants and emulsifiers contained in this degreaser make it free rinsing with water. I320

CITRUS BASED DEGREASERS

CITRO POWER

A d-limonene based, phosphate free, environmentally friendly cleaner degreaser with odour neutralizing properties. I305

ULTRASOLVE H.D.

A fortified and highly effective d-limonene based degreaser and tar remover. It contains no petroleum distillates or chlorinated solvents and is easy on the environment. It is ideal for use on heavy equipment and vehicles. I334

GOLD DEGREASER

This super concentrated, environmentally friendly blend of d-limonene and biodegradable emulsifiers is the product of choice for those more difficult situations of removing tar, asphalt and grease. I333

TRAP-FLOAT DEGREASER

A powerful, non-corrosive, d-limonene based, organic solvent with odour counteracting properties ideally suited for use in lift stations as it floats on top of the water. It dissolves and breaks up grease, oil, animal fats and cooking oils. I332

INDUSTRIAL

Lubricants, Coolants & Rig Wash

LUBRICANTS & COOLANTS

CUTTING OIL

This cutting oil is non-hazardous and water soluble. It has a high oil concentration for ultimate lubricity. Cutting Oil is ideal for use in forming, deep drawing, tapping and threading applications. It is non-corrosive, non-rancid and odorless. I313

COOLING LUBRICANT

This cooling lubricant is non-hazardous and water-soluble. It has a high cooling capability and is ideal for use in milling, turning, general grinding, form grinding, broaching and cut-off saw applications. Cooling Lubricant is noncorrosive, non-rancid and odorless. I314

SYNTHETIC COOLING LUBRICANT

A water soluble, fully synthetic cooling lubricant that has no mineral oils and is used in cutting, grinding, milling, turning and broaching applications. This low-foaming synthetic cooling lubricant and cutting oil will provide lubricity and cooling thereby extending the life of the cutting tool. I318

RIG WASH PRODUCTS

RIG WASH B

An all-purpose, non-phosphate, biodegradable, granular washing compound used for many different oilfield washing purposes. It is safe on clothing and painted surfaces. R537

RIG WASH C

An all-purpose, non-phosphate, biodegradable, granular washing compound for use in oilfield cleaning operations. It is safe on clothing and painted surfaces. R541

LIQUID RIG WASH

A non-phosphate, biodegradable, liquid cleaner-degreaser used for many different oilfield cleaning purposes. It is safe on clothing and painted surfaces and can be used with high pressure washing equipment. R539

BLUE LIQUID RIG WASH

An all-purpose cleaner-degreaser designed to clean almost any surface without harming plastic, vinyl, cloth or painted surfaces. R544

OTHER ITEMS

W-50 NON-PHOS ACID CLEANER

A concentrated non-phosphate product containing a blend of acids and detergents. It effectively removes hard water scale, stains and grime build up from concrete, metal surfaces, vinyl, tile, bath tubs, toilets and urinals. I343

COIL CLEANING ACID

An inhibited, highly concentrated muriatic acid made to remove rust, hard water scale and other accumulations from water cooled equipment, water jackets, heat exchangers and heating coils. I312

CONCRETE REMOVER

An acid that cleans concrete, removes scale and rust and removes mortar from trucks and equipment. I316

ORGANIC ACID CONCRETE REMOVER

Organic Acid Concrete Remover is a technologically advanced formulation that considers worker safety and the environment, without compromising effectiveness. It is made from 100% biodegradable organic acids and surfactants which penetrates deep into the concrete layer and hydrates it, producing a softened putty-like layer which is easily removed. I321

NEUTRA-BAC

A concentrated cleaner and deodorizer formulated to control odours around sewage disposal, garbage areas, compactors, animal shelters, stables, etc. It is also ideally suited for use in outhouses and portable toilets. I330

ASPHALT RELEASE AGENT

This is an environmentally friendly product designed to help prevent asphalt from sticking to surfaces. It can be applied to delivery truck beds, shovels and other tools. Its water-based formula creates a slippery non-stick surface that prevents the adherence of the asphalt. I346

SAFETY MELT

A nitrogen based, granular ice melter with minimal effects on concrete and grass when used as directed. I319

LIQUID SAFETY MELT

This is a biodegradable, high performance, non-corrosive liquid deicer that is effective at temperatures below -26°C. It is effective as a deicer or anti-icer and contains no corrosive chlorides so it is safer to use on structural and reinforcing steels. I323

ODOUR SORB

A highly absorbent, light density, granular deodorizer designed for use in commercial and industrial waste retention containers. It counteracts odour as well as absorbs excess moisture in open outdoor receptacles. I350

ALSO AVAILABLE:

CAUSTIC SODA LIQUID

JANITORIAL *Kitchen Products*

DL-50 MACHINE DISHWASH

A mild, phosphate-free, chlorinated dishwash compound for commercial and domestic dishwash machines. J410

PINK LIQUID DISHWASH DETERGENT

An effective dishwashing detergent for manual washing of dishes, pots and pans. J431

LEMON LIQUID DISHWASH

A mild, lemon scented detergent for manual washing of dishes, pots and pans. J432

DESCALER

A blended acid descaler for effective use on dishwash machines, glass washers, coffee machines, etc. J434

M-37 DESCALER

A food grade, phosphoric acid based descaler for dish machines and other commercial applications. J435

CF MACHINE DISHWASH

A phosphate-free, all-purpose dishwashing compound containing active oxygen for excellent soil and stain removal. J408

OSTRO BRITE

A granular, chlorinated cleaner and sanitizer for bar glass washers, ice cream machines and for presoaking in commercial warewash applications. J412

K-20 OVEN CLEANER

A heavy-duty, alkaline degreaser for grills, canopies, deep fryers and ovens. J462

H.D. GRILL CLEANER

A very highly alkaline degreaser for grills, canopies, deep fryers and ovens. J463

FRYER CLEAN

A concentrated cleaner for boiling out stainless steel deep fryers. J416

WILD CHERRY LIQUID DISHWASH

A cherry scented, economical detergent for manual washing of dishes, pots and pans. J444

GLINT-STAINLESS STEEL POLISH

An odourless, liquid cleaner and polish for stainless steel. J559

JANITORIAL *Warewash & Kitchen Products*

DPC H.D. MACHINE DISHWASH

An extra heavy duty, granular, phosphate free, chlorinated product for tough commercial dishwashing operations of high volume. J406

DL-50 MACHINE DISHWASH

A mild, phosphate-free, chlorinated dishwash compound for commercial and domestic dishwash machines. J410

E-20 LIQUID MACHINE DISHWASH NON-CHLORINATED

An exceptional liquid dishwash detergent designed for use in commercial operations. J430

E-5 LIQUID MACHINE DISHWASH CHLORINATED

A non-foaming, heavy duty, chlorinated dishwashing product. J429

POT & PAN POWDER

A granular detergent designed for hand dishwashing in commercial operations. J411

PINK LIQUID DISHWASH DETERGENT

An effective dishwashing detergent for manual washing of dishes, pots and pans. J431

LEMON LIQUID DISHWASH

A mild, lemon scented detergent for manual washing of dishes, pots and pans. J432

WILD CHERRY LIQUID DISHWASH

A cherry scented, economical detergent for manual washing of dishes, pots and pans. J444

OSTRO FOAM

A concentrated detergent for manual washing of dishes. J458

GLASS BRITE

A concentrated liquid rinse additive which reduces rinse water surface tension, providing rapid sheeting for spot-free drying. J433

ALL TEMP ECONO-RINSE

A quality, economical, non-foaming rinse additive used in the rinse cycle to allow quick drying without spotting or streaking. It contains a mild acid in addition to wetting and drying agents to prevent hard-water scale build-up. J439

LOW TEMP LIQUID MACHINE DISHWASH

A liquid product used in low temp dish and glass washing machines. J428

ALL TEMP RINSE

A high quality, non-foaming rinse additive used in the rinse cycle to allow quick drying without spotting or streaking. It contains a mild acid in addition to wetting and drying agents to prevent hard water scale build-up. J441

JANITORIAL *Warewash & Kitchen Products*

E-8 NON-CHLORINATED BAR GLASS CLEANER

A liquid cleaner used in low temperature dish machines, automatic bottle washing machines and glass washers. J440

DESCALER

A blended acid descaler for effective use on dishwash machines, glass washers, coffee machines, etc. J434

M-37 DESCALER

A food grade, phosphoric acid based descaler for dish machines and other commercial applications. J435

CF MACHINE DISHWASH

A phosphate-free, all-purpose dishwashing compound containing active oxygen for excellent soil and stain removal. J408

OSTRO BRITE

A granular, chlorinated cleaner and sanitizer for bar glass washers, ice cream machines and for presoaking in commercial warewash applications. J412

PINK CHLORINATED SANITIZER

A granular, chlorinated cleaner and sanitizer for bar glass washers, ice cream machines and presoaking in commercial applications. J414

OSTRO SAN

A quaternary ammonium-based disinfectant used for a variety of applications. J465

SILVER PRE-SOAK NON CHLORINATED

A powdered product designed for presoaking in commercial warewash applications. J415

WAREWASH ENZYME PRESOAK 20X CONCENTRATE

A 20X concentrated liquid presoak with active protease enzymes for efficient removal of food stains from flatware prior to the dishwasher. It is a phosphate-free, environmentally friendly and biologically safe presoak. J565

D-STAIN

An alkaline powder that utilizes hydrogen peroxide for stain removal and sanitizing. Ideal as a presoak for plastic dishware and as a general hard surface cleaner. J477

LIQUID WAREWASH PRESOAK CHLORINATED

A liquid presoak for commercial warewash applications. J413

K-20 OVEN CLEANER

A heavy-duty, alkaline degreaser for grills, canopies, deep fryers and ovens. J462

H.D. GRILL CLEANER

A very highly alkaline degreaser for grills, canopies, deep fryers and ovens. J463

FRYER CLEAN

A concentrated cleaner for boiling out stainless steel deep fryers. J416

GLINT-STAINLESS STEEL POLISH

An odourless, liquid cleaner and polish for stainless steel. J559

JANITORIAL *Sanitizers & Disinfectants*

LIQUID CHLORINE 12% SANITIZER

Industrial bleach. J436

LIQUID CHLORINE 6% SANITIZER

Household bleach. J437

LEMON TREE

A quaternary ammonium-based cleaner, sanitizer and disinfectant with a pleasant lemon scent for use in a variety of applications. J464

PINK CHLORINATED SANITIZER

A powdered, chlorinated sanitizer for food and beverage handling equipment. J414

OSTRO SAN

A quaternary ammonium-based disinfectant used for a variety of applications. J465

P-250 PINE DISINFECTANT

A phenol based, pine oil disinfectant cleaner for restrooms, hospitals and nursing homes. J466

PURPLE POWER

A highly concentrated, all-purpose bathroom cleaner / descaler / sanitizer. It contains a blend of organic acids for removing hard water scale, quaternary ammonium compounds for sanitizing, and a high concentration of surfactants for removal of dirt and soap scum. J558

OSTRO BRITE

A powdered, chlorinated, non-foaming cleaner sanitizer for use in ice cream machines, bar glass washers and for manual cleaning of tile floors and showers. J412

K-13 LF OSTRO DINE

An iodine based rinse agent and sanitizer for use in dish machines and bar glass washers. J438

K-10 OSTRO DINE

An iodine-based rinse agent and sanitizer for use in dish machines and bar glass washers. J478

PEROXYSAN 5

A peracetic acid based sanitizer ideally suited for a variety of sanitizing applications in food plants, dairies, breweries, wineries and beverage operations. It may be applied to pre-washed surfaces such as floors, walls, process equipment and CIP systems by immersion, coarse spray or circulation. T647

PURE DISINFECTANT

A one-step neutral quaternary ammonium based disinfectant, cleaner and deodorizer. It is recommended for use in a variety of establishments and is approved by Health Canada, the EcoLogo Program and the CFIA. J718

B-10 BIOCID

A broad spectrum anti-bacterial product for use in a variety of applications including cooling towers, crude oil storage tanks, closed heating and cooling loops, fuel storage tanks, humidification spray pans and water disposal wells. PCP# 21153.18 S759

JANITORIAL *All Purpose Cleaners & Degreasers*

PRISTINE ALL PURPOSE CLEANER

A highly versatile, all purpose, neutral cleaner suitable for a wide range of housekeeping, janitorial and light to medium industrial applications. It is approved by the EcoLogo Program. J700

GREEN PINE FLOOR CLEANER

A granular cleaner for removing grease and soil from tile floors. J417

YELLOW PINE FLOOR CLEANER

A premium granular cleaner for removing embedded grease and heavy soil from concrete floors. J418

INDUSTRIAL FLOOR CLEANER

A powdered, high quality cleaner and degreaser for concrete and tile floors. J419

LIQUID SCRUB DETERGENT

A neutral, viscous floor cleaner and scrub detergent that will not harm or remove floor finish. J443

PINE SCRUB DETERGENT

A neutral, hard surface pine scented cleaner for floors and walls that will not harm or remove floor finish. J447

AVALANCHE CLEANER- DEGREASER A

non-corrosive, fully biodegradable, water soluble degreaser that removes oil, grease, dirt, smoke deposits and grime from hard surfaces. It is approved by the EcoLogo Program. J704

NEUTRAL CLEANER

A neutral, pleasantly scented floor cleaner and scrub detergent that will not harm or remove floor finish. J453

LEMON SCRUB DETERGENT

A lemon scented, neutral cleaner for floors and walls that will not harm or remove floor finish. J454

NBC 500 NON-BUTYL CLEANER

An excellent alkaline cleaner degreaser for kitchens, food plants and food handling areas. J445

JET CLEAN (BUTYL CLEANER)

An excellent all-purpose cleaner and degreaser for housekeeping or industrial applications. J446

BLU-CLEAN (BUTYL CLEANER)

An all-purpose, alkaline cleaner and degreaser for housekeeping or industrial applications. J476

ORANGE GROVE CLEANER / DEGREASER

A phosphate-free, environmentally friendly product used in commercial housekeeping applications. J485

APPLE ORCHARD A.P. CLEANER

A phosphate-free, environmentally friendly product used in commercial housekeeping applications. J486

HYPER CLEAN

A hydrogen peroxide based cleaner with bleaching, deodorizing and sanitizing properties used for washrooms, porcelain, ceilings, carpets and upholstery. J560

ENZYME CLEANER & DEODORIZER

An all-purpose cleaner and deodorizer containing a highly active blend of microorganisms and enzymes that degrade protein, starches, carbohydrates, cellulose, fats, grease and oils. J484

JANITORIAL *Bowl, Porcelain & Tile Cleaners*

K-100 PORCELAIN CLEANER

A viscous, pleasant scented acid cleaner for shower walls, sinks and bowls. J442

BOWL CLEANER & SANITIZER 23%

A powerful, hydrochloric acid based bowl cleaner and sanitizer for use in removing hard water and iron stains from toilet bowls and sinks. Contains 23% HCl. J450

BOWL CLEANER 15%

A highly effective, hydrochloric acid based bowl cleaner for use in removing hard water and iron stains from toilet bowls and sinks. Contains 15% HCl. J451

ACID FREE CLEANSER

An excellent, viscous cleaner that also sanitizes, deodorizes and shines a variety of surfaces including porcelain, chrome, ceramic and stainless steel. J472

P-17 BOWL CLEANER

A lactic acid based product used to remove dirt and scale from bowls and porcelain surfaces. J473

MAGNUS III

A concentrated blend of acids and detergents that works well on bathtubs, shower walls, sinks and bowls. J557

PURPLE POWER

A highly concentrated, all-purpose bathroom cleaner / descaler / sanitizer. It contains a blend of organic acids for removing hard water scale, quaternary ammonium compounds for sanitizing, and a high concentration of surfactants for removal of dirt and soap scum. J558

HYPER CLEAN

A hydrogen peroxide based cleaner with bleaching, deodorizing and sanitizing properties used in washrooms, for walls, floors, ceilings and as a non-acid bowl cleaner. J560

REFRESH PEROXIDE CLEANER

A hydrogen peroxide based multi- purpose cleaner, stain remover, sanitizer and deodorizer. It is fully biodegradable and approved by the EcoLogo Program. J708

JANITORIAL *Hand Cleaners*

PEARLIZED CORAL HAND SOAP

A coral colored, viscous, pearlized product for gentle and efficient cleaning of hands. J474

PINK LIQUID HAND SOAP

An opacified and economical product for gentle and efficient cleaning of hands. J452

ORANGE LIQUID HAND SOAP

An extra mild, orange scented hand cleaner. J475

GERMICIDAL HAND SOAP

A coral colored, antibacterial hand soap formulated for gentle and efficient hand cleaning. J550

BORAX HANDSOAP (POWDERED)

A borax-based, heavy-duty, powdered hand cleaner. J422

SANI HANDS TH

An isopropyl alcohol based, viscous hand sanitizer containing moisturizers and skin conditioners. It is excellent for use in food plants, hospitals, nursing homes and other facilities where sanitation is a high priority. Health Canada registered NPN 02242309. J548

SANI HANDS FOAM – AF

This alcohol free foaming hand sanitizer is a very effective product while being especially mild on the skin. Sani Hands Foam – AF is quat based and is registered with Health Canada, DIN # 02351935. J546

FOAM FRESH HAND SOAP

An extra mild, non-viscous liquid that is specially formulated for use with foam generating dispensers. J549

JANITORIAL *Carpet Cleaners*

POWDERED CARPET CLEANER

A high quality carpet cleaning detergent for use in steam or hot water extraction equipment. J800

CARPET EXTRACTION POWDER PLUS

A very soluble, concentrated detergent designed for use in truck mounted and portable extraction machines. J802

ENZYME CARPET PRESPRAY PLUS

An excellent powdered prespray for removing dirt and difficult organic stains from high traffic areas and heavily soiled carpets. It is also excellent for blood, urine, food and beverage stains. J810

BROWN OUT

A powdered, percarbonate based product designed to remove brown stains sometimes encountered after the extraction process. J812

LIQUID CARPET CLEANER

A concentrated detergent used in steam or hot water extraction equipment. J820

C-40 LIQUID CARPET CLEANER

A detergent designed for use in carpet extraction equipment. J822

EXTRACTION LIQUID PLUS

A highly concentrated carpet- cleaning compound for portable or truck mounted equipment. J824

LIQUID CARPET PRESPRAY

A highly effective prespray used for high traffic areas and heavily soiled carpets. J830

SOLVENT PRESPRAY

A solvent based degreaser for use on upholstery, carpets and other fine fabrics prior to cleaning with extraction equipment. J831

GENERAL PURPOSE SPOTTER

A unique, water based, all purpose spot remover for a variety of stains on carpets. J837

FABRIC RUST REMOVER

An acid based product used to remove rust and rust related stains from carpets. J838

LIQUID TRAFFIC LANE CLEANER

A concentrated prespray for heavy soil and high traffic areas. J840

CARPET NEUTRALIZER

A mild acid solution to neutralize alkaline residues from extraction detergents. J842

FABRIC PROTECTOR

A product which treats the fibers in the carpets and upholstery and preventing soil from adhering to the fabric. J844

FABRIC PROTECTOR- REPELLANT

A mineral spirit based repellent that will make fabric surfaces resistant to waterborne stains, shed water easily and dry rapidly. J845

JANITORIAL *Carpet Cleaners*

LIQUID RUG SHAMPOO

A dry foam shampoo for use in shampoo cleaning applications. After carpet is dry, foam and dirt is vacuumed up. J848

POWDERED DEFOAMER

A granular defoamer used in carpet cleaning and other industrial applications. J421

D-50 DEFOAMER

A liquid defoamer used in carpet cleaning and other industrial applications. J456

LIQUID RUG STEAM CONCENTRATE (1:5)

When diluted with 5 parts water, this product makes a high quality carpet extraction concentrate. J778

JANITORIAL *Other Items*

HOUSEHOLD AMMONIA

An ammonia product used for a wide variety of cleaning and grease removing applications. J469

AMMONIA 26 °

A full strength liquid ammonium hydroxide solution. J470

ALL WEATHER WINDOW CLEANER

A high quality, streak free, window cleaner effective to -20 °C. when used at full strength. J448

CLEAR VIEW GLASS CLEANER

A ready-to-use window and glass cleaner of exceptional quality and biodegradability. It is approved by the EcoLogo Program. J712

CLEAR VIEW CONCENTRATE

A concentrated window and glass cleaner that needs to be diluted 1:30 with water prior to use. It is approved by the Environmental Choice program. J714

WINDOW CLEANER CONCENTRATE (1:10)

When diluted with 10 parts water, this product makes an excellent window cleaner. J776

FRESH BREEZE DEODORIZER

This product is a liquid deodorizer formulated to chemically neutralize odours rather than using a sanitizer or just masking the problems with perfume. The light Fresh Breeze scent left behind is very pleasant and not overwhelming. J561

AIR FRESH – NEW CAR

A liquid deodorizer designed to eliminate organic odours. J562

HAIR & BODY SHAMPOO

A shampoo and body wash containing conditioners and emollients, which aid in moisturizing skin and scalp. J553

HAIR CONDITIONER

This product is a creamy, light yellow, tropical-scented conditioner. It helps eliminate static from hair and leaves it soft and manageable. J551

APPLE FRESH

An apple scented room freshener and deodorizer. J554

OSTRO FRESH (LIQUID DEODORIZER)

A liquid deodorant designed to eliminate organic odors instantly. J467

AIR FRESHENER I (FRESH SCENT, LEMON)

A liquid deodorizer designed to eliminate organic odours. Available in the above noted two scents. J555

AIR FRESHENER II (CHERRY, BUBBLE GUM, CINNAMON)

A liquid deodorizer designed to eliminate organic odours. Available in the above named scents. J556

AIR FRESH - VANILLA

A liquid deodorizer designed to eliminate organic odours. J562

JANITORIAL *Other Items*

LEMON OIL

Pleasantly scented and highly effective furniture polish. J471

INDUSTRIAL VINEGAR

Used as a light water scale remover, window cleaner and neutralizer of floors after stripping of floor finish.

J480

MT-1 MOP TREATMENT

A water based treatment for dust mops and dusting cloths. J482

BIOZYME L

LIQUID ENZYME TREATMENT

A highly active blend of selected microorganisms for treating sewage systems, grease traps and drains. J487

BIOZYME P

POWDERED ENZYME TREATMENT

A concentrated, dry formulation of bacteria strains designed to treat sewage systems, grease traps and drains. J427

BIOZYME BLUE

A non-toxic, formaldehyde-free product containing enzymes and micro-organisms designed to digest and deodorize wastes in RV's, marine, airplane and bus holding tanks. J483

PAPER PRODUCTS

We carry a variety of paper products and accessories such as universal roll towels, and roll towel dispensers, toilet paper and toilet paper dispensers, facial tissue, singlefold towels and disinfectant wipes. Please inquire.

SOAPS & SANITIZERS

We carry a variety of soaps (in both liquid and foam form) and hand sanitizers, along with commercial grade dispensers. Please inquire.

GLOVES

We carry a wide variety of single use and specialty gloves. Examination grade nitrile gloves, cold weather gloves, Grease Monkey gloves and more. Please inquire.

MORE ...

First aid kits, first aid kit supplies, odor control systems, light bulbs, mops, anti-slip heel covers, dust mask, respirators. If you need it to clean or stock a bathroom - we've got it!

JANITORIAL *Floor Finishes & Sealers*

SUPER 200 URETHANE FINISH

A quality, durable, high gloss finish to be used on most floor surfaces including concrete, tile and stone floors. J488

SUPER 90 FLOOR FINISH

A concentrated, fast drying, high gloss, multi-coatable finish that does not require buffing. J493

SUPER 300 ACRYLIC SEALER

A tough, acrylic based sealer for sealing porous new floors and for resealing floors after stripping. J502

ARENA FINISH

A black, non-powdering finish for use on rubber floors in dressing rooms and hallways. J499

RAGE SPEED STRIPPER

An aggressively fast-acting, water-soluble stripping compound for removing high-speed floor finishes. J459

W-75 SPEED STRIPPER

A highly concentrated, water-soluble stripper for speed stripping of floor finishes. J461

GLEAM ENVIRO FLOOR FINISH

A Green Seal™ certified floor finish that applies easily, levels nicely and dries to a deep gloss. This combination sealer and finish is non-yellowing, and its low maintenance formula offers industry-leading black mark and scuff resistance. J716

LAUNDRY

Powdered & Liquid Detergents

POWDERED DETERGENTS

ONE SHOT LAUNDRY DETERGENT

A highly alkaline detergent for washing cotton and polyester, heavily soiled linens, towels, overalls and uniforms. It is ideal for use in food plants and other industrial and commercial applications. L503

CPX LAUNDRY DETERGENT

A heavy-duty, white, concentrated, medium sudsing laundry detergent for efficient removal of soil. It contains detergent builders, surfactants, optical brighteners and has a light lemon fragrance. L506

H D LAUNDRY DETERGENT

A high quality, heavy-duty, high sudsing laundry detergent. It is good in soft and hard water and can be used for delicate washing in domestic and institutional operations. It works well with any type of alkali. L504

X-400 LAUNDRY DETERGENT

A concentrated, medium sudsing laundry compound extremely efficient in removing ground in dirt while not harming delicate fabrics. L505

OXYZYME LAUNDRY DETERGENT

A high quality detergent containing color safe bleach and enzyme stain removers. It works well in all water temperatures and does not require a sour- neutralizer. L502

ENZYME LAUNDRY DETERGENT

A quality laundry detergent especially compounded with proteolytic enzymes for removing protein based stains like blood, perspiration, meat juices, etc. L508

LIQUID DETERGENTS

LIQUID LAUNDRY DETERGENT

An excellent product for effective cleaning of all synthetic and natural fibres such as cotton, wool and silk. It works well with Laundry Alkali for commercial applications. L524

HARD WATER DETERGENT

A high quality liquid laundry detergent that provides efficient cleaning in areas where hard water is a problem. L522

LIQUID ONE SHOT

A highly alkaline, medium sudsing detergent for effective cleaning of cotton and polyester, heavily soiled linens, towels, overalls and uniforms. L523

SUPER DETERGENT

A highly concentrated, neutral detergent with a high concentration of emulsifiers and water soluble solvents including pine oil for effective cleaning of greasy, oily and soiled fabrics. L521

LIQUID ENZYME PRESOAK & DETERGENT

A high quality laundry detergent fortified with active protease enzymes for efficient removal of food and organic stains. This is an environmentally friendly and biologically safe detergent that is phosphate-free and pH neutral. L510

LAUNDRY

Sours, Softeners & Bleaches

SOURS & SOFTENERS

POWDERED FABRIC SOFTENER

An effective softening agent that eliminates static and significantly improves ironing time. It can be used for all washable fabrics.

L509

LIQUID FABRIC SOFTENER

A high quality, cationic liquid product designed to soften and eliminate static cling from all fabrics. L529

LIQUID SOUR

A quality product that neutralizes any harsh chemical residues in linen, protecting against skin irritation. L528

LIQUID RUST REMOVING SOUR

A concentrated neutralizer formulated to remove rust while protecting against fabric harshness and skin irritations. L539

LIQUID SOUR & SOFTENER

A high quality product that neutralizes any harsh chemical residue while softening and eliminating static from all linen. L530

LIQUID SOUR & SOFTENER PLUS

A quality neutralizer and fabric softener ideal for use in areas where the water supply contains iron or manganese to remove and prevent yellowing of fabrics. L531

BLEACHES

I-8 BLEACH

A powdered, stable, organic chlorine product with uniform bleaching strength. It is highly water-soluble and contains 8% available chlorine. L511

I-16 BLEACH

A powdered, stable, organic chlorine product with uniform bleaching strength. It is highly water-soluble and contains 16% available chlorine. L512

LIQUID WHITENER

A pure bleaching, stain removing compound designed for use in food plants and other industrial and institutional laundry applications. L527

OXYGEN BLEACH

A powdered bleach for colored fabrics containing sodium percarbonate. L513

LIQUID OXYGEN BLEACH

A highly effective, hydrogen peroxide-based product that is an excellent alternative where the use of chlorine is undesirable. L537

LAUNDRY *Other Items*

LAUNDRY ALKALI

A highly alkaline, free-flowing, powdered compound designed as an excellent alkali source to be added to a detergent for heavy duty washing operations. L507

LIQUID LAUNDRY ALKALI

A booster to Liquid Laundry Detergent for maximum removal of stubborn grease, oil and stains on cottons and polyesters. L525

WATER CONDITIONER

A powdered product designed to soften water while sequestering iron, calcium, magnesium and other unwanted minerals. It will remove and prevent graying and yellowing of fabrics. L519

PRE-SPOTTER

A high quality spotter for removal of most common fabric stains. It is non-flammable and non-corrosive. L533

LIQUID LAUNDRY EMULSIFIER

A degreaser-emulsifier well-suited for use in laundering greasy or oily tablecloths, uniforms, etc. L526

H.D. EMULSIFIER PLUS

A highly concentrated, deodorized, solvent based emulsifier and grease remover ideal for removing greasy or oily stains in laundry and dry-cleaning operations. L534

LIQUID SIZING

A mixture of sizing, brighteners and starch formulated for adding body and bright finish to cotton, polyester and poly-cotton blends. It reduces linting and resoiling and improves drying time. L536

NO. 20 BOILER COMPOUND

A balanced treatment containing sulfites for hot water boilers and closed systems. S743

NO. 25 BOILER COMPOUND

A balanced treatment containing nitrites for hot water boilers and closed systems. S744

NO. 30 BOILER COMPOUND

This is a concentrated balanced boiler compound for treating low- pressure steam boilers. S745

NO. 34 BOILER COMPOUND

A molybdate-based, balanced boiler compound designed to provide scale and corrosion protection for closed chilled-loop, hot water systems and steam boilers. S746

NO. 38 BOILER COMPOUND

A molybdate and nitrite-based boiler compound that will prevent scale and corrosion while establishing a protective film in hot water boilers and closed systems. S747

NO. 45 CORROSION INHIBITOR

A neutralizing, amine-based product that will protect against rust, pitting and corrosion in steam and steam condensate lines. Normally used with No. 30 or No. 34 Boiler Compounds. S748

NO. 98 COOLING WATER COMPOUND

A concentrated corrosion and scale preventative compound for cooling towers and condenser feed water. It is ideally suited for use in open recirculating cooling towers. It contains anti scaling agents, cathodic and anodic inhibitors and will prevent corrosion of both steel and soft metals. It allows high cycles of concentration by controlling alkalinity. S755

NO. 87 COOLING WATER COMPOUND

A concentrated corrosion and scale preventative compound ideally suited for open recirculating cooling towers. S756

COOLING WATER COMPOUND – AIR

Formulated in compliance with Alberta Infrastructure Regulations for cooling towers. It is a concentrated corrosion and scale preventative compound for cooling towers and condenser feed water, ideally suited for use in open recirculating cooling towers. S754

GLUTICIDE 15

A microbiocide for controlling slime-forming bacteria, sulfate- reducing bacteria and algae in air washers and recirculating cooling water systems; service water and auxiliary systems; heat transfer systems. PCP# 31043. S757

B-10 BIOCIDES

A broad spectrum anti-bacterial product for use in a variety of applications including cooling towers, crude oil storage tanks, closed heating and cooling loops, fuel storage tanks, humidification spray pans and water disposal wells. PCP# 21153.18 S759

OS-15 OXYGEN SCAVENGER

A concentrated sodium sulfite solution used to reduce oxygen in feed water for steam boilers and other water treatment applications. S760

OS-100 OXYGEN SCAVENGER

A catalyzed, concentrated, sodium sulfite product for rapid oxygen reduction in steam boilers and other water treatment applications. S761

WATER TREATMENT

Boiler & Cooling Water Compounds

BD-86 DETERGENT DEGREASER

A concentrated, non-foaming, non-phosphate detergent-degreaser for cleaning boilers. It contains silicates and is ideal for the removal of residues often found in new boiler installations. S766

NEUTRAL BOILER CLEANER

A water softening detergent with a pH of 7.5 to 8 designed for degreasing and cleaning aluminum boiler systems. S765

SP-50 POWDERED BOILER COMPOUND

A balanced treatment containing sulfites to protect against scale and corrosion in boilers. It is ideal for food plant use. S763

NO. 10 BOILER COMPOUND

A concentrated, highly alkaline, non-freezing corrosion preventative boiler compound for oil patch use. S762

ALUM BOILER TREATMENT – NITRITE

A nitrite-based boiler compound with a controlled pH of 8 for the treatment of aluminum boiler systems that operate at pressures of less than 900 psi. S773

PBT-20 POLYMER BOILER TREATMENT

A scale-conditioning additive that will inhibit the formation of hard scale deposits. It is ideally suited for use with other additives in larger boiler systems. S772

E-40 BOILER WATER BLEND

A full strength, chelating agent to control hardness and heavy metal ions in larger boiler systems. S768

PD-90 LIQUID PHOSPHATE DISPERSANT

This product is a phosphated product used for preventing scale in boilers and feed lines by sequestering calcium and magnesium complexes. It is also an excellent corrosion protection additive especially when used with an alkaline boiler compound. S770

WATER TREATMENT *Descaling Products*

NO. 110 DESCALER

A fully inhibited, fast-acting descaler for boilers and cooling systems containing hydrochloric and phosphoric acids. S750

MURIATIC ACID

A highly concentrated, inhibited acid for descaling and rust removal of boilers, watercooled equipment, water jackets, heat exchangers and heating coils. S753

NO. 125 BOILER CLEANING COMPOUND

A cleaner-descaler designed for cleaning small industrial and residential heating systems. S751

DESCALER 140

A dry, odorless, crystalline, inhibited acid cleaner that can safely be used on all metals commonly encountered in acid cleaning. S752

15% SULPHAMIC ACID DESCALER

A clear and colorless liquid sulphamic acid descaler that is ideal for use in industrial applications. This odorless organic descaler can be safely used on all metals commonly encountered in acid cleaning and is significantly less corrosive than typical mineral acid descalers. Sulphamic acid is safe to use around chlorine as it will not liberate toxic chlorine gas. S769

WATER TREATMENT

Glycol Products

H-100 GLYCOL

A clear, inhibited, full-strength, ethylene glycol antifreeze and heat transfer fluid with excellent thermal stability. Ideally suited for use in hot water heating systems. S775

H-6040 GLYCOL SOLUTION

An inhibited, ethylene glycol antifreeze solution and heat transfer fluid effective to -50°C. S774

H-40 GLYCOL SOLUTION

An inhibited, ethylene glycol antifreeze solution and heat transfer fluid effective to -40°C. S776

H-250 H.D. NON-TOXIC GLYCOL

An inhibited, full-strength, propylene glycol antifreeze and heat transfer fluid. It has excellent thermal stability, is non-toxic, odourless, clear, and ideally suited for use in hot water heating systems. S777

H-150 NON-TOXIC GLYCOL SOLUTION

An inhibited, propylene glycol, odourless antifreeze solution effective to -33°C. S779

H-55 NON-TOXIC GLYCOL SOLUTION (60/40)

An inhibited, propylene glycol antifreeze solution effective to -55°C. S780

H-170 NON-TOXIC GLYCOL SOLUTION -40°C (55/45)

An inhibited propylene glycol based antifreeze that protects to -40°C. S781

ALUMASOL 40

A light blue coloured propylene glycol based antifreeze and heat transfer fluid with a buffered pH of 8, blended specifically for use in boiler systems with aluminum heat exchangers. S786

FIRE PROTECT 40 NON-TOXIC GLYCOL SOLUTION

A premixed, 40 percent inhibited propylene glycol based antifreeze solution effective to -22°C that is designed for use in automatic sprinklers and other fire protection systems where it could be exposed to very high temperatures during fires. S785

FIRE PROTECT 50 GLYCERINE

A premixed, 50 percent inhibited glycerine based antifreeze solution effective to -22°C that is designed for use in automatic sprinklers and other fire protection systems where it could be exposed to very high temperatures during fires. S784
